

# Angel Care

Medical Seamless Compression Garments

**AngelCare™** is a revolutionary line of post-surgery seamless garments designed to support and fit comfortably each curve of your body, making it the best post-surgery garments on the market.

Wearing a compression garment after surgery allows the skin to naturally replace itself on the scar tissue, and will help reduce swelling and pain. The three-dimensional compression support provided by the **AngelCare™** garments does not restrain your everyday movement. It will help you achieve a faster recovery and better results.

bb

Available in Beige or Black  
Taille S à 6X

Three rows of hooks are available to adjust comfortably.

Our collection of post-surgery garments is made with 3 available levels of adjustment with hook and eye, allowing the garment to adjust perfectly with the evolution of your recovery. The garment's elasticity is not compromised since the hooks are strategically placed on the interior of the thighs and across the stomach. There is no loss of movement and each member can be adjusted independently to reduce the swelling. The hooks are attached at a distance of 2 cm applying equal pressure on the body and once attached, they stay firmly in place. Their comfort is indisputable.

### THE COMPRESSION GARMENTS WITH HOOK AND EYE ARE IDEAL FOR:

- ◆ Abdominal and thighs liposuction
- ◆ Abdominal hernia
- ◆ Abdominoplasty
- ◆ Thigh lift
- ◆ Gluteal implant
- ◆ Lower body lifting
- ◆ Body surgery after an important loss of weight

**P1 405**

## COMPRESSIVE ARM SLEEVE

The Compressive arm vest is designed to gently compress the arms, allowing to reduce the swelling and the pain after surgery. The sleeves are non-irritating under the arm, and the 3 available levels of adjustment on the abdomen give a greater comfort.

### IDEAL FOR:

- ◆ Arm swelling
- ◆ Arm liposuction

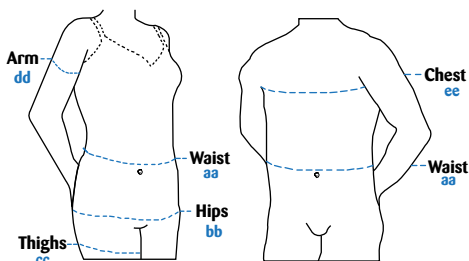

**N.B.** Please refer to the size chart to find which measurements need to be provided. Follow the letter indicated on each product.

## BANDE DE MATERNITÉ

The AngelCare™ maternity band relieves abdominal pain associated with pregnancy. Seamlessly, it gently compresses your abdomen to support the stomach and reduce muscle tension due to the growing weight of your baby, providing an immediate relief. The polypropylene and elastane fibers used in this garment, are treated with a silver solution which results in an antimicrobial material that remains fresh and dry.

### IDEAL FOR:

- ◆ Lumbar support
- ◆ Umbilical hernia
- ◆ Support for the lower abdomen
- ◆ Three-dimensional support zones

P2 100

## SEAMLESS HIGH WAIST GARMENT

P2 303

aa

bb

Available in Beige or Black

Saille S to 2X

This seamless garment is easy to put on and adapts to your natural curves thanks to its three-dimensional knitting. It supports the delicate areas of the belly, the lumbar region, the thighs and the buttocks. The only seams you will find are between the legs and these are very thin and non-irritating. Perfect for wearing under clothes, dresses or tight pants, this garment will allow you to have a slender silhouette.

**N.B.** Please refer to the size chart on page 2 to find which measurements need to be provided. Follow the letter indicated on each product.

### IDEAL FOR:

- ◆ Post-maternity
- ◆ Postural support
- ◆ Sheathing effect
- ◆ Abdominal hernia

All AngelCare™ garments are made of:

70% Polypropylene & 30% Elastane

## ABDOMINAL VEST FOR MEN

P1 404

aa

ee

Available in Beige

Size S to 4X

The abdominal vest was specifically designed for men because of its compression zones, which are strategically defined for their anatomy. Long enough to cover the lower abs, it can be used for either chest or abdominal surgery. Underneath the zipper, we have added hook and eye which makes it easier to put on.

### IDEAL FOR:

- ◆ Abdominal liposuction
- ◆ Abdominoplasty
- ◆ Abdominal hernia
- ◆ Pectoral implant

## COMPRESSION BRA

The bra stabilizer is known for the quality of its compression combined with the solid support it brings following surgery. Its three-dimensional knitting offers a support zone that adapts to the placement of implants while offering absolute support like all AngelCare™ products. The front attachments offer 3 levels of adjustment and can be adapted to every postoperative stage. It covers very well the back and the side of the body and is also used to control trunk edema after breast cancer.

### THE COMPRESSION BRA IS IDEAL FOR:

- ◆ Breast reduction
- ◆ Breast augmentation
- ◆ Breast reconstruction
- ◆ Mastectomy
- ◆ Inverted nipples
- ◆ Trunk edema
