COPPER COLLECTION

COPPER INFUSED FIBERS

More than just reducing odor and symptoms caused by bacteria and fungus, the copper infused fibers enhance the appearance of skin texture, tone and skin wellness.

DIAMOND COPPER EC810C

Content

55% Cutec (Copper)
20% Polyamide
15% Elastane
10% Sorbtek

Calibrated Compression
20-30 mmHg

Offered in long version (L)
and in short version (S)

- Provides therapeutic pressure to help improve blood circulation
- Helps prevent varicose veins
- Increases muscle stability and coordination
- Reduces inflammation and leg fatigue
- Designed with copper infused fibres to help manage venous leg and foot ulcers

Energize tired feet and legs with the Diamond Copper Compression Socks. The secret is the fusion of two technologies; graduated compression and copper infused fibers. Help relieve discomfort and pain caused by athlete's foot and leg/foot ulcers. Contains antimicrobials that naturally eliminate odors and symptoms caused by bacteria and fungus. Made of breathable and comfortable material that helps to improve the appearance and texture of the skin. Perfect for everyday use.

PRIMARY COPPER EC820C

COP

Offered in long version (L)
and in short version (S)

- Provides therapeutic pressure to help improve blood circulation
- Helps prevent varicose veins
- Increases muscle stability and coordination
- Reduces inflammation and leg fatigue
- Designed with copper infused fibres to help manage venous leg and foot ulcer

The Primary Copper sock is perfect for relieving swollen ankles and feet. Made with a copper fiber that absorbs moisture, reduces odor and bacteria formation. Improves the appearance and texture of the skin. It helps relieve the symptoms of varicose veins and excess fluid retention. Assists in the healing of open wounds for patients with venous insufficiency. Specific left / right sock maximizes compression efficiency. Targeted heel and toe padding to protect feet from friction. Perfect for everyday use.

PRIMARY COPPER TWIST EC822B

COP

- Adjustable arch support
- Helps reduce pain, cramps and inflammation of the foot
- Helps treat plantar fasciitis
- Helps improve posture

The Ankle Primary Copper Twist is the only stocking on the market that offers the possibility of rotation (twist) to the arch of the foot, it helps to correct the slight deviations of the foot (supination or pronation). In addition to relieving the pains associated with plantar fasciitis, it improves posture and proprioception of the foot. Made with copper fibers, it helps reduce symptoms caused by bacteria and fungus, improving the appearance and texture of the skin. Its soft, elastic and sophisticated finish provides unparalleled comfort. Perfect for everyday use.

- Provides therapeutic pressure to help improve blood circulation
- Increases muscles stability and coordination
- Helps prevent varicose veins
- Reduces swelling and leg fatigue

Lightweight, thin sock for moisture control and maximum comfort. Promotes blood circulation and reduces swelling to keep legs healthy and energized. Seamless toes, the Infinity socks ensure a perfect fit without ever slipping down. Perfect for everyday use.

Offered in long version (L) and in short version (S)

INFINITY EC830C
